Test Sets**

**Eurofighter Typhoon
battery Charger Analyser**

Our team of engineers specialise in electro-mechanical and high tech electronic equipment, R&D projects, prototype equipment to commercial production

**Eurofighter Typhoon
Mk8 Ventilator Respirator**

Founded in 1974 and located in the beautiful cathedral city of Lincoln, one of the world's great historic places and birthplace of the tank; Castlet is proud to continue the great engineering legacy.

As an employee owned business, Castlet is truly independent; meaning that we work together as a team to provide the first-class service our customers have come to expect.

ACCREDITATIONS

We continually invest in Research and Development, and also work in partnership with UK universities. We have installed equipment in over 70 different parts of the world, and export to more than 30 countries each year.

Our ethos has always been simple - say what you mean, and do what you say; as relevant today as when we started out.
